

Jenks Center Technology Presentations

**2nd Wednesday of every month
@ The Jenks Center
11:30 a.m.**

**Presented by Ran Cronin, Librarian
Information Services and Technology
Winchester Public Library**

Hoopla - September 13

Hoopla provides online and mobile access to thousands of movies, tv shows, music, ebooks, audiobooks, and comics. Winchester library patrons can borrow, instantly stream and download free dynamic content with a valid library card. Bring a wi-fi enabled device and learn how to use Hoopla!

MLNMobile App - October 11

Did you know that the Winchester Public Library is part of the Minuteman Library Network? It includes 43 libraries in the MetroWest area. Using the MLNMobile App, learn how to search the catalog, request a book, place a hold, renew your items, and carry your digital library card in your mobile device.

Rokus & Hotspots - November 8

Did you know the Winchester Public Library offers rokus and hotspots for the public to borrow? Roku is a streaming media player, which means it takes content from the Internet and displays it on your TV. Hotspots are wireless access points, or a device which provides wi-fi for the borrower. Learn more at this informational session.

Digital media with Libby - December 13

Do you regularly use the Overdrive app to access e-books and digital audiobooks through the library? Overdrive has created a new easier-to-use app called Libby, which features a simpler design and easier borrowing. Learn more at this informational session.
